CASAS PREFABRICADAS
VIOLETA

COMPANY PROFILE

Casas Prefabricadas Violeta, specializes in the field of prefabricated buildings. It is a professional enterprise that integrates R&D, design, production, sales, and service. The company's main products include integrated houses, mobile homes, foldable houses, and modular container houses, which are widely used in various scenarios such as construction site camps, emergency command centers, tourist camps, commercial exhibition halls, military and police facilities, and residential housing. With advantages such as rapid assembly, energy efficiency, structural stability, and reusability, the products are well-received by customers both at home and abroad.

The company is equipped with advanced production facilities and a highly experienced technical team, adhering to the development philosophy of "quality first, innovation-driven." Casas Prefabricadas Violeta continuously improves product quality and service standards. Over the years, the company has actively expanded into international markets, with its products exported to Southeast Asia, Africa, the Middle East, Europe, the Americas, and other regions, earning a strong international reputation. Looking ahead, Casas Prefabricadas Violeta will remain committed to promoting and applying green building technologies, providing global customers with more efficient, safe, and environmentally friendly prefabricated building solutions.

PERFIL DE LA EMPRESA

Casas prefabricadas Violeta, se especializa en el campo de los edificios prefabricados. Es una empresa profesional que integra investigación y desarrollo, diseño, producción, ventas y servicio. Los principales productos de la compañía incluyen casas integradas, casas móviles, casas plegables y casas modulares tipo contenedor, que se utilizan ampliamente en diversos escenarios como campamentos en obras de construcción, centros de comando de emergencia, campamentos turísticos, salas de exposiciones comerciales, instalaciones militares y policiales, y viviendas residenciales. Con ventajas como el montaje rápido, eficiencia energética, estabilidad estructural y reutilización, sus productos son bien recibidos tanto a nivel nacional como internacional.

La empresa cuenta con instalaciones de producción avanzadas y un equipo técnico altamente experimentado, y sigue la filosofía de desarrollo de "calidad primero, impulsado por la innovación". Casas Prefabricadas Violeta mejora continuamente la calidad de sus productos y los estándares de servicio. A lo largo de los años, la empresa ha expandido activamente su presencia en mercados internacionales, exportando sus productos a Asia Sudoriental, África, Medio Oriente, Europa, América y otras regiones, ganando una sólida reputación internacional. De cara al futuro, Casas Prefabricadas Violeta seguirá comprometida con la promoción y aplicación de tecnologías de construcción ecológicas, ofreciendo a sus clientes globales soluciones de construcción prefabricada más eficientes, seguras y respetuosas con el medio ambiente.

ORDER PROCESS / PROCESO DE PEDIDO

PRODUCT OVERVIEW / DESCRIPCIÓN GENERAL DEL PRODUCTO

EXTERIOR WALL SANDWICH PANEL

Product introduction:

Dibaier metal exterior wall insulation board is mainly composed of color-coated steel plate with nano antifouling technology on the surface, the middle layer is a special fire-resistant hard foamed polyurethane, and the bottom layer is an aluminum foil anticorrosion layer. The specifications of the inner wall panel are: thickness 16mm, 20mm, 25mm, width 383mm, and length can be customized.

Features:

Thermal insulation, sound insulation, fire prevention, super hardness, water proof and moisture-proof, green environmental protection, convenient installation, and not easy deformation.

Applications:

Renovation of mobile homes, sentry boxes, modern villas, high-rise buildings, light steel workshops, and Exterior wall renovation of old building.

PANEL SÁNDWICH PARA PARED EXTERIOR

Introducción del producto:

El panel aislante metálico para paredes exteriores Dibaier está compuesto principalmente por una placa de acero recubierta de color con tecnología nano antiincrustante en la superficie, una capa intermedia de poliuretano espumado rígido ignífugo especial y una capa inferior de lámina de aluminio anticorrosión. Las especificaciones del panel son: espesor de 16 mm, 20 mm o 25 mm, ancho de 383 mm y longitud personalizable.

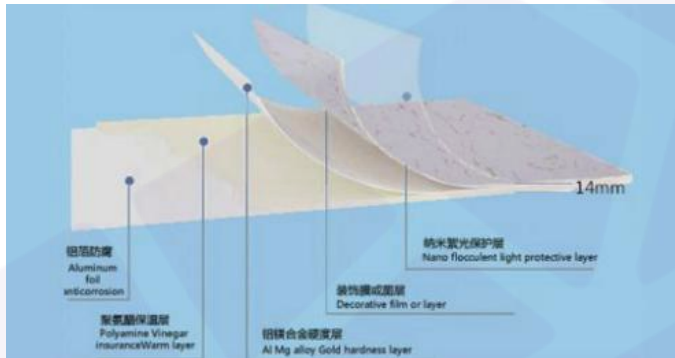

Características:

Aislamiento térmico, aislamiento acústico, resistencia al fuego, alta dureza, impermeabilidad y resistencia a la humedad, respeto al medio ambiente, fácil instalación y alta resistencia a la deformación.

Aplicaciones:

Rehabilitación de casas móviles, casetas de vigilancia, villas modernas, edificios de gran altura, talleres de estructura de acero ligero y renovación de fachadas de edificios antiguos.

PRODUCT OVERVIEW / DESCRIPCIÓN GENERAL DEL PRODUCTO

INTERIOR WALL SANDWICH PANEL

Product introduction:

Dibaier metal interior wall insulation board is mainly composed of color-coated steel plate with nano ant-ifouling technology on the surface, the middle layer is a special fire-resistant hard foamed polyurethane, and the bottom layer is an aluminum foil anticorrosion layer. The specifications of the inner wall panel are: thickness 14mm, width 435mm, and length can be customized.

Features:

Thermal insulation, sound insulation, fire prevention, super hardness, waterproof and moisture-proof, green environmental protection, convenient installation, and not easy deformation.

Applications:

Renovation of mobile homes, sentry boxes, modern villas, high-rise buildings, light steel workshops, and interior renovation.

PANEL SÁNDWICH PARA PARED EXTERIOR

Introducción del producto:

El panel aislante para paredes interiores de metal Dibaier está compuesto principalmente por una placa de acero con revestimiento de color y tecnología nanotecnológica antimanchas en la superficie, una capa intermedia de poliuretano espumado rígido ignífugo especial y una capa inferior de lámina de aluminio anticorrosión. Las especificaciones del panel para paredes interiores son: grosor de 14 mm, ancho de 435 mm y longitud personalizable.

Características:

Aislamiento térmico, aislamiento acústico, resistencia al fuego, alta dureza, impermeabilidad y resistencia a la humedad, respeto al medio ambiente, fácil instalación y alta resistencia a la deformación.

Aplicaciones:

Rehabilitación de casas móviles, casetas de vigilancia, villas modernas, edificios de gran altura, talleres de estructura de acero ligero y renovación de interiores.
